

## ***Interactive comment on “Micro-components survey of residential indoor water consumption in Chiang Mai” by Y. Otaki et al.***

**H. van Dijk (Editor)**

j.c.vandijk@tudelft.nl

Received and published: 12 March 2008

I agree with the comments of the reviewers. This means that major revision/rewriting of the paper is necessary. So I ask the authors to either withdraw the paper or to rewrite it to accomodate the comments of the reviewers.
