

## ***Interactive comment on “Method development for arsenic analysis by modification in spectrophotometric technique” by M. A. Tahir et al.***

**G. Amy (Editor)**

g.amy@unesco-ihe.org

Received and published: 15 December 2008

I have read the two sets of reviewer comments and recommend accept with revision, implying the authors must take into account the two reviewers' comments. They should prepare a comment-response summary and I (as assigned editor) will then make the final decision which, if they make adequate revisions, will be favorable.
