Dear authors,

due to the difficult positioning of your paper within the scope of the journal, it has been impossible to obtain experienced reviewer comments for the paper.

As such, we regret to inform you that we have no choice but to decline your paper due to its incompatibility with the journal scope.

We apologize for this and the length of the review process. However, we hope to  
C91

welcome new material - more directly within the field of drinking water engineering -  
from you in the future.

Best regards, the DWES editorial board.
