

Interactive comment on “Functioning conditions of the Casale pumping station in Mantova, Italy” by C. Capponi et al.

C. Capponi et al.

caterinacapponi87@gmail.com

Received and published: 29 August 2014

Most of the suggested changes have been introduced in the text. Since the manuscript has been significantly modified, not all of them were still applicable to the amended text.

Thank you very much for your attention.
