Received and published: 28 July 2016

We are thankful for the generous suggestion. We strongly believe that revision based on your constructive suggestion will help to enhance the quality of our manuscript.

Comment-1. After section 4.1 there is no section 4.2; please consider changing the section numbering.

Response: We are agreed with this change.

2.The mechanism for operation and maintenance of SAF should be elaborated.

Response: Agreed.

3. Why Fig 1 has been referred in the following paragraph? : "In these veins, this study developed a framework (Fig. 1) with considering multi-perspective views in context to socio-economic, environmental, technological, gender dimensions along with feasibility and affordability of using SAR (like SAF) technologies as the important tool for"

Response: It was our unanticipated mistake and apologizing for it. Now we have revised and placing (Fig 1) in the appropriate referable paragraph.
