

## ***Interactive comment on “Optimization shallow groundwater quality by the application of photocatalysis treatment technique in El Obour city, Egypt” by El-Montser M. Seleem et al.***

**El-Montser M. Seleem et al.**

elkarim\_mahmoud@azhar.edu.eg

Received and published: 20 January 2019

Page one: Abstract, Line No(14) change The heavy metal to The heavy metals. Done

Page four: Line no. 13 Are TiO<sub>2</sub> or N-TiO<sub>2</sub> N-TiO<sub>2</sub>

Page five: Line number 24 and 27 superscript (TiO<sub>2</sub>) Done

Conclusion: Change line no 6 to (Photocatalytic treatment of polluted water using N-doped nano-titania). Done

Recommendations: Change the last paragraph to: “ Photocatalytic treatment shows excellent ability towards the removal of microbial pollutants as well as organic residuals

C1

in safe and inexpensive ways. Done

References: Could reduce the references Done

Page sixteen: Duplication of the figure caption The first caption was removed
