Received and published: 1 June 2019

Thanks for your time and consideration, all your concern is solved in new version.  
Following is your comments:

- The introduction should be shortening:

Done. Introduction shortened

- Please determine the distribution of the data (Normal etc.):

I assumed you mean the effluent concentration which is almost normal distribution

- Please use the latest references:

References updated

- The manuscript needs serious English editing:

C1

English improved

- Increase the quality of the images:

Increased
