

## ***Interactive comment on “Consumption of safe drinking water in Pakistan: its dimensions and determinants” by Naeem Akram***

**Anonymous Referee #1**

Received and published: 26 March 2020

The objective is interesting, but author needs to re-write and re-structure everything if author want to publish this draft. This current format is not suitable for a standard scientific journal. The statistical analysis are also doubtful. Please see my complete feedbacks in the attachment.

Please also note the supplement to this comment:
